**Subject:** RE: Tomorrow's Conference Call

If it is possible to put in wells, I would prefer the following week due to Bristol's availability. They are available then but I don't know if they could oversee field work next week with such a small amount of lead time.

I am available to talk to anyone/everyone most of the rest of this week with the exception of scattered calls and meeting times.

**Subject:** Tomorrow's Conference Call

As you can see in Kristen's response, she is not available tomorrow, but is available on Friday. I did just call both her phones, left messages, and notified her of this morning's e-mail with intent to hopefully install wells maybe as early as next week. I also asked her to take a look at the locations in advance of Friday to let me know if she had any concern/recommendations. Unless someone tells me otherwise, I will continue to prepare costs because I am very quickly running

out of time. Do we need to have an informal discussion before Friday?

Thank you,

David N. Larsen P.G

Good Morning:

Would you folks have some time later this week to have an abbreviated technical group discussion? If we want to get additional monitoring well installed yet this year, we should talk soon.

I have time on Wednesday afternoon (1-2 PM or 3- 4 PM) or on Friday. Please let me know if either of those options would work and I'll set up a call. Thanks!

**Subject:** Tower Standard Technical Group - October 27 Draft Call Notes

Good Morning:

Better late than never, attached are the notes that I took on our October 27 call. Please hit Reply All with your comments.

Also, I just realized that the November call is scheduled for Thanksgiving morning. Options include having the call on Wednesday the 23<sup>rd</sup> or moving it into December. Please share your thoughts on that, too.

Thanks!
